Software Engineering Student, JAVA Developer

Education :

Bachelor of Engineering (B.E.), Computer Science and Engineering
Ramaiah Institute of Technology, Bengaluru   CGPA: 9.4 | Expected Graduation: 2027

Skills :

Languages: Java, C, C++, Python, JavaScript, R
Web Technologies: HTML, CSS, JavaScript
Concepts: Data Structures & Algorithms, OOP, Networking, Exception Handling, Multithreading, RESTful APIs
Frameworks & Libraries : Spring Boot, Java swing
Tools & Platforms: Git, Postman, IntelliJ IDEA, Linux, VS Code

Experience :

AI Virtual Internship – Resume Generator Project
Edunet Foundation (in collaboration with Microsoft & AICTE)   April - May 2025

- Completed a 4-week virtual internship focused on AI fundamentals
- Developed an AI-powered Resume Generator as part of the virtual internship project

Projects :

- **Weather App**
  Tech Stack: Flutter, Dart, OpenWeatherMap API
  Constructed a mobile application utilizing React Native to present weather data, focusing on intuitive UI/UX principles; end-users reported a 90% satisfaction rate with app usability.

- **Flappy Bird Game**
  Tech Stack: Java, Java Swing
  Constructed a Java-based version of Flappy Bird incorporating intuitive controls and scoring mechanics, using graphical animations to simulate real-time gameplay, becoming the most popular game demoed in the internship.

- **CWC Website**
  Tech Stack: HTML, CSS, JavaScript, Font Awesome
  Designed and developed an interactive cricket-themed website featuring a hand cricket game, secure sign-in, multimedia elements, and dynamic user experiences.

- **AI Resume Generator**
  Tech Stack: Java , HTML, Tailwind CSS, Deepseek R1, Spring Boot, React

Developed an AI-powered Resume Generator using React and backend integration to dynamically create professional resumes. We can download generated resume as a pdf
